

## Announcement

### A call for individual consultants

#### **On the selection of the consultants for the modernization and review of Architecture and Construction disciplines' curricula in the scope of the project by creating educational research laboratories equipped with new technologies**

The foundation of the "National University of Architecture and Construction of Armenia" announces a competition on the selection of the consultants for the modernization and review of Architecture and Construction disciplines' curricula in the scope of the project by creating educational research laboratories equipped with new technologies. The consultants should review the following academic programs: *"Industrial and Civil Construction"*, *"Production of Building Materials, Products and Structures"*, *"Construction and Exploitation of Transportation Routes"*, *"Design of Edifices"*, *"Architecture"*, *"Environmental Protection and Exploitation of Natural Resources"*, *"Biosafety"*. The selected consultants should represent the areas of architecture, construction or ecology. Especially, for the participation in competition the experts on education policy, educator-lectures, psychologists and other specialists in the field of education are eligible to apply.

The consulting services include the following activities in accordance with the corresponding educational programs:

- \* Final formulation of review results.
- \* Development of curricula.
- \* Final formulation of results for each course according to the each discipline.
- \* Development of a curriculum for each subject according to each educational program.
- \* Preparation of an informational package for the educational programs (a schedule of the educational process, the final results of the educational program, curriculum, the training program including the final results of the training program).
- \* Presentation of follow-up reports on implemented works in phases (1 phase equals to 1 month) in 5 business days after the end of each phase.
