The diagram shows the front and top views of a mechanical part. The front view (top) features a vertical dimension of 120, a horizontal dimension of 112, and a sloped line with an 80% rise over run. Key points A, B, and C are marked. The top view (bottom) shows a circular base with a radius of R100, a vertical offset of 70, and a horizontal offset of 15. A circular feature on the right has a radius of R20 and a vertical dimension of 55. A dashed line indicates a center point for a feature labeled R30.

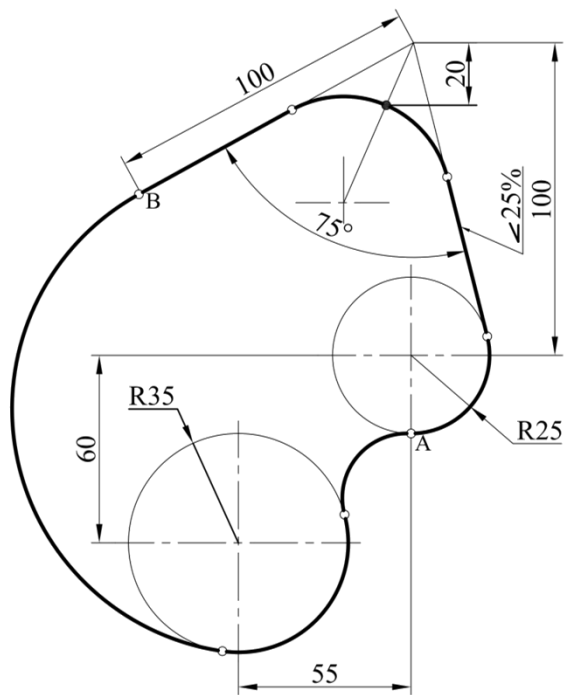

39

Technical drawing of a mechanical part. The part features three circular elements: a small circle on the left with radius R20, a middle circle with radius R25, and a large circle on the right with radius R120. The horizontal distance between the center of the small circle and the center of the middle circle is 65. The horizontal distance between the center of the middle circle and the center of the large circle is 67. The horizontal distance from the rightmost edge of the large circle to a vertical reference line is 45. The vertical distance from the bottom of the large circle to the center of the middle circle is 40. The vertical distance from the bottom of the large circle to the top of the middle circle is 57. A sloped line connects the bottom of the small circle to the bottom of the large circle, with a slope of  $\geq 40\%$ . Points A, B, C, and D are marked on the part: A is at the top right edge of the large circle, B is at the bottom of the large circle, C is at the bottom of the small circle, and D is at the top of the middle circle. The part is shown with dashed lines for hidden features.

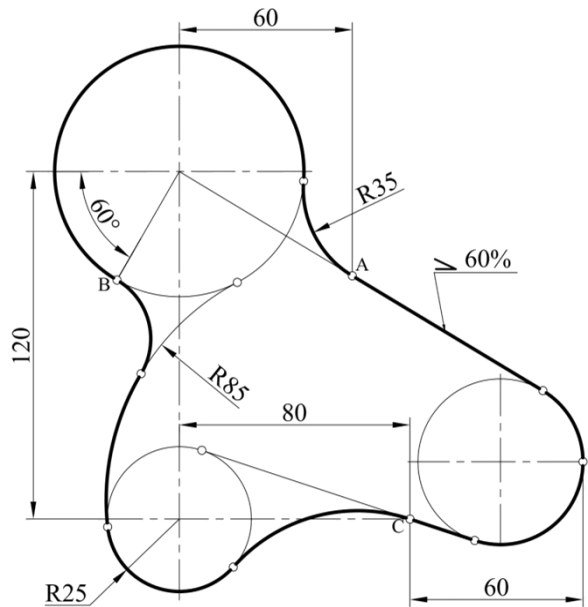

Technical drawing of a mechanical part with the following dimensions and features:

- Overall width: 80
- Overall height: 120
- Radius of the top-right circular feature: R28
- Radius of the bottom-right circular feature: R50
- Radius of the bottom-left circular feature: R30
- Distance from the bottom-left corner to the center of the R30 circle: 11
- Distance from the top-left corner to the center of the R30 circle: 50
- Angle of the bottom-left corner:  $30^\circ$
- Slope of the bottom-right edge:  $\leq 20\%$
